Who Gets to Decide What's Normal?

**Why do we automatically assume it's the students' fault
if they don't pay attention in school?**

For every student with a legitimate neurological or physiological learning disorder, there may be several others who have been labeled that way simply because their learning style makes it inconvenient to have them in a traditional classroom. In fact for many learners, the answers to why they struggle in school often lie more with the *classroom* than with the student.

In this informative and practical session, discover how many lines of first defense can be taken down before your child may be subjected to psychiatric labels and/or medication. In an age where the "quick fix" has become an increasingly appealing option, you can take steps to ensure you don't allow your child to be labeled or dismissed simply because he or she doesn't fit into the standard educational mold.

“Cynthia is an excellent communicator. She uses large doses of humor and many real-life anecdotes to convey her messages. The time flew by as we laughed and learned together. I wholeheartedly recommend Cynthia as one of the best retreat/seminar presenters we have ever heard.”

—Gabrielle Dudley

“The raves and positive comments continue to come back to me from other individuals. They feel there is so much that you can offer in the fun and informative method of teaching you have demonstrated!”

—Elenjo Schall
Eastside Fire and Rescue, Issaquah, WA

It amazes me how well she knows teenagers and exactly how we think and act and feel. She made wonderful suggestions that make sense and will work as long as parents stay calm and not point their fingers and make us do it. Once again Cynthia is an amazing speaker who has certainly done her research and knows what she is talking about. Thank you very much and I plan to share these suggestions with my mom—hopefully it will improve our relationship.

—Student Participant
Metro Maryland Youth for Christ

“It is so rare to find speakers who can entertain an audience with humor, educate by appealing to their common sense, and when called upon to do so, put both of these abilities together to drive home a point. Thank you again for a fantastic and memorable program.”

—Pete Hunt
Automotive Service Association of Washington, Lakewood, WA
